Japanese: Curriculum Overview (Foundation Term 3, 2017)

Numbers and Colours

Konnichi wa minna san (こんにちは みんなさん)! Hello everybody! This term the children will focus on numbers and colours. They will learn how to count by ones to 10 and become familiar with numbers to 20. The children will also begin to recognise and write single kanji characters for the numbers 1 to 10. Our other main learning intention is verbalising colours in Japanese. Students will learn how to say 'I like ~' and combine this knowledge to express which colours they favour. In addition, the children will use this set expression to articulate other things they like.

Target grammar:

- Answering the roll correctly: はい、います・いません (I am here/He; She is here) (I am not here/He; She is not here)
- Expressing what you like: ~ が すき です (I like ~)

Cultural focus:

- Develop an appreciation of shodou (calligraphy) when writing numbers in kanji script.
- Learn about the Obon Festival (Festival of Souls). Obon is a time when Japanese people pray for and welcome back the spirits of their ancestors. Some parts of Japan celebrate Obon in mid-July, while other areas celebrate it in mid- August. It is one of the biggest traditional events in the year.
